

Quartz Effect Self Adhesive PVC Film Aging Resistance Waterproof

Our Product Introduction

for more products please visit us on realsundeco.com

Basic Information

- Place of Origin: Foshan, China
- Brand Name: Realsun Deco
- Minimum Order Quantity: 3000m/model
- Price: Negotiable
- Packaging Details: Pack in roll
- Delivery Time: 15-20 days
- Payment Terms: T/T 30% down payment, 70% balance before shipment
- Supply Ability: 500000m/month

Product Specification

- Material: PVC
- Liner Paper: 80gsm, 100gsm, 120gsm
- Waterproof: Yes
- Surface: Glossy/Matte/Super Matte/Embossed/Soft Touch
- Adhesive: Acrylic Pressure Sensitive Adhesive
- Size: 122cm*50m, 60cm*10m
- Thickness: 0.08mm-0.15mm
- Design: Wood Grain, Marble, Brick, Stone, Plain Color Etc.
- Highlight: **Quartz Effect Self Adhesive PVC Film, Self Adhesive PVC Film Aging Resistance, Aging Resistance pvc self adhesive foil**

Product Description

Quartz Design Self Adhesive PVC Film with Excellent Durability

Product Description:

The self adhesive pvc film is made primarily from polyvinyl chloride, which is a synthetic plastic material known for its durability and versatility. To improve adhesion, a layer of pressure sensitive adhesive is added to the back of the film. The adhesive bonds to a variety of surfaces, such as glass, metal, plastic, and wood. The thickness of our self adhesive film is varied depending upon the application and desired lifespan.

We also offer a wide selection of finishes, including glossy, matte, satin, and textured. This allows you to choose a look that fits the purpose of your project. In addition, we provide a variety of colors and patterns such as wood grain, marble, and brick designs. The self adhesive pvc film is a popular choice for both interior decoration and various craft and DIY applications due to its ease of use.

Features:

Product Name: Self Adhesive PVC Film

Adhesive: Acrylic Pressure Sensitive Adhesive

Liner Paper: 80gsm, 100gsm, 120gsm

Design: Wood Grain, Marble, Brick, Stone, Plain Color Etc.

Surface: Glossy/Matte/Super Matte/Embossed/Soft Touch

Material: PVC

Contact Paper: Self Adhesive Furniture Film, Vinyl Contact Paper

Technical Parameters:

Are you looking for high quality vinyl flooring? Look no further. We offer vinyl flooring with a thickness ranging from 0.1 mm to 0.12 mm. The width comes in two different sizes, 1220 mm and 600 mm, and each roll is either 50 m or 10 m in length. The designs available feature wood grain, solid color, marble, and brick, and the surface treatment options include matt, super matt, embossed, high gloss, and soft touch. To top it off, we also offer OEM and ODM services.

Applications:

Self-adhesive PVC film is a multi-purpose material that can be used for various projects, from house remodeling, to DIY craftwork, to signage. Knowing how to apply self-adhesive PVC film is thus essential. Here follows a general guide for applying self-adhesive PVC film:

Materials required include self-adhesive PVC film, a clean and smooth surface for fixing the film (e.g., furniture, walls, windows, or any other suitable surface), a measuring tape or ruler, a sharp utility knife or scissors, a squeegee or a credit card, a clean cloth or sponge, and a spray bottle with soapy water (optional).

Steps for application include preparing the surface (ensuring it is clean, dry, and smooth; removing any dust, dirt, or imperfections; and cleaning it if necessary); measuring and cutting the PVC film using a sharp utility knife or scissors; peeling off the backing paper; applying the exposed adhesive side to the surface (aligning it with the surface, and gradually peeling off the remaining backing paper as the film is applied); smoothing out any air bubbles; trimming off excess film along the edges; wiping off any excess water or soap residue; and, finally, inspecting the surface to ensure that the PVC film is securely in place and free from imperfections.

It is worth noting that the instructions provided in this guide are just general advice. There could be specific instructions for certain applications, so it is important to consult the manufacturer in more detail if working on a one-off project. Furthermore, proper surface preparation and careful installation are key for achieving a professional-looking result.

Customization:

Customize Your Self Adhesive PVC Film

Brand Name: Realsun Deco

Place of Origin: Foshan, China

Minimum Order Quantity: 3000m/model

Price: Negotiable

Packaging Details: Pack in roll

Delivery Time: 15-20 days

Payment Terms: T/T 30% down payment, 70% balance before shipment

Supply Ability: 500000m/month

Liner Paper: 80gsm, 100gsm, 120gsm

Adhesive: Acrylic Pressure Sensitive Adhesive

Durability: Excellent

Packing and Shipping:

Packaging and Shipping of Self Adhesive PVC Film:

The product is packed in rolls and shipped in cardboard boxes.
The boxes will be sealed with a plastic film wrap and secured with stretch film.
Each roll is labeled with product information, including width, length, grade, and lot number.
The boxes are placed on pallets and strapped with the appropriate strapping materials.
The pallets are then shrink-wrapped with plastic film.
The pallets are loaded onto trucks for transportation.
